

Homework will be sent out on a Thursday to be returned the following Tuesday.

ST JAMES
C.E. PRIMARY SCHOOL

Please make sure your child has their PE kit in school every day as the PE schedule can change. Earrings should be removed or covered with a plaster.

Class 7

I hope you had a fantastic Christmas break and are well rested for the year ahead. I am really excited to be part of the St James family and have already felt very welcomed by all the parents and staff I have had the pleasure of meeting with and speaking to. I am really looking forward to working closely with you and your children to help them achieve their best!

Children read daily in school in a number of ways. It is important your child's reading book is in school along with their reading record. If your child has misplaced their book or does not have one, please let us know.

Learning Challenge:

Children are very inquisitive and like to ask questions. You can support your child by discussing what you know and what they have learnt in school. If possible use books and the internet to support learning.

Our Learning Challenge Topic this term are:

Why is Bolton a cool place to live?

Please remember to read with your child and sign their home-school record so they can earn Reading Reward Miles as well as helping to improve class percentages, working towards our class

English: We are looking at quality texts to support our learning. Our text this term will be instructions taught through Talk 4

Writing, look out for our text maps and verbal retelling.

At St James' our policy is to use cursive script. Letters should be formed clearly and correctly. If children continue to show good handwriting they will receive a pen licence! Please ensure work at home is practised in cursive script.

Our science questions are looking at the unit 'States of Matter'.

How can we sort everything in the world into 3 groups?

Does gas weigh anything?

How can I help at home?

Maths: In maths we will constantly be looking at place value and calculations for addition, subtraction, multiplication and division for our specific year group. We will also working on mastery maths problems as this will help your child to gain a deeper understanding of maths concepts and ideas. Help your child by practising their times tables. By the **end** of Year 3 children should know their 2, 5, 10, 3, 4 and 8 times tables and by the **end** of Year 4 children should know all their times tables. All children are at different levels so please work at the level your child is at.

Reading Eggs can also be used at home to support learning. You may also like to discuss our computing topic and explore Scratch online.
