

PE Subject Leader
Report to Governors
November 2018

At St James, we recognise the contribution of PE to health and well-being of the children. All children at St James are involved in an enriched physical exercise program during curriculum time, which includes a variety of activities designed to challenge and inspire our children. Research has shown that participation in extra-curricular activities also has a positive effect on attainment and we are currently developing the opportunities for a variety of sports related after school clubs for all children across school.

In April 2013, the Government announced new funding of £150 million for Physical Education (PE) and sport. This funding is to be used to improve the quality and range of sport in schools. Schools are to decide how best to use this funding to improve the quality and breadth of PE and sport provision, including increasing pupil participation in P.E. The amount this year has been doubled in comparison with the previous year. Schools with 16 or fewer eligible pupils receive £1,000 per pupil. Schools with 17 or more eligible pupils receive £16,000 and an additional payment of £10 per pupil. For St James this equates to a total of £18,650

The Education Skills and Funding Agency (ESFA) sends academies, free schools and CTCs their PE and sport premium funding in 2 separate payments. You receive:

- 7/12 of your funding allocation on 1 November 2018
- 5/12 of your funding allocation on 1 May 2019

Therefore, so far we have £10,879 allocated for this year until the final instalment of £7,771 in May.

The following table is a breakdown of how we intend to allocate the expenditure so that we meet the needs of the children in our school and subsequently improve standards.

St James CE Primary School
Primary Sports funding 2016-2017

<u>Allocation received</u> <u>2017-2018</u>		Cost
	Total for this year: £18,650	
	<p style="text-align: center;">Elite coaching</p> <ul style="list-style-type: none"> • Providing existing staff with CPD training to help them teach and/lead PE session effectively • Specialist sports teachers to deliver a variety of to all year groups throughout the year working alongside staff based on a completed baseline assessment for all children followed by termly assessments. • Lunchtime clubs that are catered for specific skills and year groups throughout the year including an outdoor gym initiative. Training for all lunchtime staff. • After school clubs that are catered for specific skills and year groups throughout the year including training for upcoming sports competitions. • Actiphons teaching for Nursery children and then rolled out to children who need it from reception and KS1. Staff training for Nursery teacher alongside and resources for school to keep. • introduction and teaching of sports leaders initiative for KS1 and KS2 • Introduction and teaching of healthy hearts initiative for reception children. 	£9126.59

Total so far: £18,253.37

Left: £396.53 (plus any monies left over from last academic year)

At St James, our aim is to provide children with a range of opportunities in sport so that they are able to excel in a variety of physical activities.

To help achieve this aim we:

- Have used the P.E funding to buy in support and teaching from Elite coaching
- Have adopted an intensive sports competition calendar that has been discussed and developed by teachers within the Farnworth cluster. It has been carefully planned to meet the needs of all children from years 1-6 including activities for those children experiencing individual/specific needs.

- Are planning to use some of the funding to provide specialist after school clubs and coaching in areas where our children express interest.
- Have used some of the funding to enable the Sports lead to develop her professional development in terms of the expectations of PE throughout school, assessment, raising standards for all pupils and developing staff confidence and delivery of high quality PE.
- Our Primary School Sport's Funding will enable to continue to provide such opportunities. It will help us to continue and extend our provision through employing additional sports professionals, participate in future competition calendar events and train our staff to deliver in-house quality PE sessions.

The impact of the PE funding so far:

- Staff development

Teachers throughout school feel more confident and equipped to deliver innovative and differentiated PE sessions that provide the children with varied opportunities to learn and develop new and existing skills in a variety of different sports and physical activity.

Curriculum development

Teachers are now more confident and competent to deliver high quality PE to all children. Staff are now confident to use a range of teaching and learning styles in PE to match lesson content. Children are now experiencing a broader and engaging curriculum. Our PE curriculum is wide and varied, including Multi-skills/ football/rugby/ gymnastics, dance, netball, and cricket to ensure children are confident to try new sports.

- Achievement

We have purchased a new scheme of work in the last academic year with lesson plans in a wide range of sports allowing children to develop the required skills across the curriculum. There are assessment opportunities in each lesson, with concise objectives, allowing staff to assess which children are below, in line, or exceeding age related expectations. Across Key Stage One and Two we are hoping for 85% of children to be either in line or achieving age related expectations in PE. We are still currently developing the use of robust assessment strategies in PE and are hoping that the further investment in this area will help to develop this.

- Extra-curricular activities

The range of extra-curricular activities in school has increased but we are aware that this needs to continue to improve further. We are hoping to include ideas requested by the children throughout school and will be working on this throughout this year.

What's next?

- To continue to ensure all staff/ new staff are confident and secure in delivering the P.E curriculum, including assessment.
- To increase the number of children achieving in line and exceeding age related expectations.
- To ensure staff are achieving targets set and improving P.E knowledge.
- To use assessments to target and challenge children within lessons.
- To enhance opportunities for children to access and choose after school activities related to Physical Education.
- To use the outdoor gym, lunchtime staff training and new playground marking to increase physical activity and help to promote long standing healthy lifestyles for all children.
